Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Allowable Subject Matter

1. Claims 12,13,17-21 are allowed.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claim 32 is rejected under 35 U.S.C. 102(e) as being anticipated by West et al. (USPN 6912629B1). As per claim 32, West et al. discloses a network computer having a network connection to couple the network computer to a network, the network computer being programmed to: receive an electronic message sent over the network by the remote computer, wherein the message indicates that the remote computer is prepared to start a data back-up process; send an electronic message to the remote computer to instruct the remote computer to start the data back-up process; monitor the data back-up process being performed by the remote computer; and send a message indicating a status of the back-up process; wherein the network computer is programmed to instruct the remote computer to start the back-up process using data stored on the remote computer in column 7, line 27 – column 8, line 30; column 8, line 65 – column 9, line 11.

Response to Arguments

4. Applicant's arguments with respect to claim 32 have been considered but are moot in view of the new reference found, West et al., after the moving up of the subject matter disclosed in 32 that was objected to in the previous office action and the cancellation of the previously rejected claims.
